MANAGEMENT REPORT**United States**

In the United States during quarter three of 2019, economic activity showed signs of further deceleration. There was a slow-down in Investments and capital expenditure intentions, accompanied by a gradual slowdown of consumer durables orders and a drop in industrial production. This was a continuation of trends observed since mid-2018. Business confidence weakened, particularly in the Manufacturing sector. In the US, consumption remained the main driver of growth, since fundamentals were still strong despite some signs of moderation. Unemployment remained stable at 3.7%, while the labour participation rate rose as wage growth eased. However, the confidence of US consumers weakened, as American households were starting to question the outlook for future economic growth. In quarter three core inflation recovered, reaching 2.4%, whilst the inflation index tracked by the US Federal Reserve (Fed) remained at 1.6% year-on-year. The Fed cut its key rate (within the range of 1.75% to 2%) to counter the negative effects of political uncertainty and the weak global environment, against a backdrop of volatile trade negotiations.

In quarter four of 2019, US economic activity projected mixed signals, pointing to a gradual deceleration. Data published in October 2019, showed growth at 2.1% after peaking at 3.2% in Q2 2018. Business confidence surveys pointed to prolonged weakness in Manufacturing, as the contraction of industrial production and the drop in investment intentions continued to weigh heavily on the Manufacturing sector's performance. The Services sector, however, remained resilient. In the US, household consumption continued as the main driver of growth. It was supported by a fall in unemployment (3.5%) and decent, albeit slowing, wage growth (3.1% YoY). Core inflation rose to 2.3%, whilst the inflation index tracked by the Fed remained at 1.6%. The Fed cut its interest rates in October, emphasising that further easing would require a significant re-evaluation of the state of the US economy. In the meantime, the unpredictable trade negotiations between the United States and China continued.

At the beginning of 2020, the slowdown in US economic activity was noticeable, with signs of weakening consumption and investment, and moderation in retail sales and capital goods orders. Corporate sentiment in Manufacturing stabilised somewhat and signs from the Services sector were more moderate. US consumer sentiment remained broadly positive, with the labour market still quite buoyant. On the political front, the run-up to the next presidential election started with the selection of Democratic Party presidential candidates. The economic picture was then completely altered by the progression of the Covid-19 epidemic, which led the President Trump to declare a state of emergency on 13 March 2020. Lockdown measures for the US population began at the end of quarter one. PMI indicators fell sharply to levels close to 40 and initial unemployment claims reached a historic high of 3.3 million in the week of 21 March. The response from public institutions was unprecedented: the Federal Reserve reduced its key rate by 150 basis points, to 0-0.25%. It also announced a new purchasing programme for assets of unlimited duration and size, and introduced several programmes aimed at supporting credit to businesses. The budgetary response was also very significant with the announcement of a plan to support the economy totalling over 2 billion dollars, comprising a number of measures in favour of households and businesses.

In quarter two of 2020, the US economy experienced a very sharp economic slowdown from April onwards. Lockdown measures that were implemented in many US regions to halt the Covid-19 pandemic paralysed a number of sectors of economic activity. The negative effects on consumption were spectacular, whilst inflation fell sharply. The sudden halt in business activity and the fears of a prolonged recession also stymied investment. Pressure on the labour market intensified, with unemployment claims reaching historic highs in April. In May, economic activity began to recover as lockdown measures were relaxed. June data confirmed a gradual economic recovery, mainly based on domestic demand, while the pandemic continued to disrupt international trade. Inflation remained moderate, while a significant improvement was seen in the labour market. However, the recent spike in the number of new coronavirus cases in the US increased the risk of new lockdown measures, which could hinder economic recovery in the United States.

Eurozone

In quarter three of 2019, disappointment mounted for the Eurozone economy. Firstly, the publication of Q2 growth figures showed a clear slowdown in growth (GDP growth of 0.2%, after 0.4% in Q1 for the region as a whole, with a slight drop in German GDP). Secondly, quarter three indicators showed a worsening of the situation in Industry, notably in Germany, due to uncertainties associated with Brexit, the US-China trade war and by significant adjustments in the German Automotive sector. The rest of the economy, particularly the Services sector and the labour market, showed limited signs of contagion, following the difficulties plaguing the Industrial sector. From a political point of view, quarter three of 2019 was marked by a new Italian government, whose attitude seemed to point to a drop in tensions with the rest of the EU on several major issues (including the budget and immigration). In Spain, no government was formed following the April elections, necessitating a return to the polls in November 2019. Lastly, as the new official Brexit date (31 October 2019) approached, the ability of the UK and the EU to reach an agreement remained a significant unknown.

In quarter four, economic data in the Eurozone improved. Firstly, the publication of Q3 GDP figures revealed growth figures slightly higher than expectations (0.2% instead of 0.1%). In addition, Germany, which was highly exposed to the global industrial slowdown, avoided a recession. Quarter four indicators showed a stabilisation in the Manufacturing sector, albeit at very low levels and the rest of the economy including the Services sector was less affected by the difficulties in the Industrial sector than previously thought. After the significant monetary easing measures decided in September by the European Central Bank's (ECB) President Mario Draghi at the end of his term of office, his replacement by Christine Lagarde was not accompanied by any major announcements. On the political front, a new Brexit agreement was reached at the end of October between the United Kingdom and the European Union. The major victory by the Conservatives in the UK elections on 12 December allowed the ratification of this agreement, paving the way in theory for an orderly exit from the EU by the UK. In Spain, the November elections again did not result in a parliamentary majority. Finally, in France major social tensions were reignited due to a planned pension reform.

During the first quarter of 2020, the Eurozone economy saw a very moderate start to the year. In the first two months of 2020 domestic demand, buoyed by a dynamic labour market, was the main driver of growth. Investment remained weak and the Manufacturing sector remained under considerable pressure, particularly in Germany and Italy. In March, the spread of the Covid-19 pandemic in Europe had very significant consequences for the Eurozone economy. Lockdown measures completely or partially halted activities in the Services sector and disrupted business in the Manufacturing sector. Eurozone PMI indicators fell to record lows of 31.4 and 28.4 for Industry and Services respectively. European institutions decided to intervene with a joint response to support the Eurozone economy. The ECB kept its key interest rates unchanged but announced new emergency asset purchase programmes for a total amount of EUR 870 billion, as well as several measures aimed at providing the liquidity necessary to enable banks to continue lending to businesses. European governments, for their part, decided on significant measures to support the economy, relating in particular to medical expenses, increased unemployment compensation and business loans or business loan guarantees. In addition to announcing their own support programmes, European institutions lifted constraints on governments' budgets and their opportunities to help businesses. Finally, year-on-year inflation was 0.7% in March 2020, down from the 1.2% pace seen in February.

The impact of the coronavirus pandemic on the Eurozone economy intensified in April 2020, as strict lockdown measures were adopted and many companies were forced to close. Consumption and investment collapsed, while companies saw the sharpest drop in activity ever recorded. The pressure on the labour market increased as job cuts reached record highs. However, European governments announced unprecedented fiscal stimulus measures to support a recovery, with EU institutions also providing support. Pressure on economic activity began to ease in May, following the relaxing of lockdown measures. In June, the recovery was mainly based on domestic demand, as the weakness of global demand remained a major hindrance. Consumption increased and companies reported an improvement in their activity levels and operating conditions. Inflation remained very moderate after falling in April, with very strong divergences depending on the product and service category. To support and stimulate economic recovery, the European Commission proposed the creation of a significant stimulus fund (EUR 750 billion). Negotiations regarding this proposed recovery package were continuing at the end of June 2020.

Emerging markets

Emerging market indicators showed that the slowdown recorded at the beginning of 2019 continued in quarter three. After a slight improvement in July 2019, exports were once again disappointing and a further wave of US tariffs on Chinese products triggered an immediate retaliation by China. Later, in September, both countries seemed to adopt a more constructive attitude during their trade negotiations. In terms of monetary policy, the region's central banks intensified their easing measures, which included a 7.5% cut in key interest rates in Turkey and an unexpected drop in Thailand. China also eased its monetary policy by introducing a new key rate, the LPR, and by cutting it twice between August and September. India reduced corporation tax by around 10%, rebalancing the relative roles of the budgetary and monetary authorities.

Figures published during quarter four of 2019 revealed a small upturn in the GDP of emerging economies after a low point between Q2 and Q3. Household consumption remained resilient throughout the year. In quarter four, international trade figures remained weak due to the ongoing US-China trade war. However, at the end of the quarter, the US-China trade dispute eased with the announcement of a preliminary agreement to avoid additional tariffs and remove some of the newly imposed tariffs. Inflation remained moderate, albeit with food price increases in China and India, bringing general price indices to uncomfortable levels for monetary authorities. However, the general attitude of central banks in emerging economies remained favourable to growth with, overall, a greater focus on monetary easing than on budgetary recovery.

The beginning of 2020 was marked by an unprecedented health crisis with the spread of Covid-19 in China and then across the globe. Faced with this pandemic, most countries adopted lockdown measures. Governments announced a number of budgetary measures, firstly to combat the virus and secondly to limit the negative impact of this crisis on the economy. Central banks also greatly relaxed their monetary policy. The responses of the public authorities obviously differed from country to country, depending on their room for manoeuvre. Against a backdrop of major uncertainty regarding the duration of the pandemic and its impact on global growth, risky assets – first and foremost those of emerging countries – were heavily affected and capital outflows were at a historic high. A third crisis followed the health, economic and financial crisis: the oil price crisis. This was brought about by a trade war between producer countries and a sharp fall in demand linked to the drop in global economic activity. The oil price hit a low point not seen for 20 years, reaching \$21 per barrel for WTI and for \$23 for Brent. While growth forecasts were revised downwards and the massive rise in government deficits was weighing heavily on the most vulnerable countries, rating agencies started to lower ratings for some countries, thus increasing the risks to external financing. However, the International Monetary Fund (IMF) announced the opening of credit lines for the most fragile countries.

In quarter two of 2020, the Covid-19 pandemic continued to have a very negative impact on growth in emerging countries. The IMF updated its outlook for the global economy in 2020, which included a further downward revision of the global contraction, now expected to be -4.9% YoY in 2020 (down 0.7% from April) and a downward revision for 2021 to 5.4% (down 0.4%). A return to growth is expected in 2021 with annual growth of 5.9% (revised down by 0.7%) for emerging markets and of 4.8% (revised up by 0.3%) for advanced economies. The strong economic contraction, combined with the exceptional budgetary policy measures that were implemented, resulted in a deterioration of the budgetary situation in all regions. The tax deficit in emerging countries is projected to reach 10.6% of GDP in 2020 and 8.5% in 2021, bringing their debt/GDP ratio to 66.7%. To limit the negative impact of this crisis on the economy, central banks continued to adapt their monetary policy with quantitative easing and interest rate cuts. This was particularly true of Mexico, Brazil, India, Colombia, Indonesia and Russia.

1 INTRODUCTION

Amundi Funds (the "Fund") is organised as a "Société d'Investissement à Capital Variable" ("SICAV") under the laws of the Grand Duchy of Luxembourg. The Fund, initially Groupe Indosuez Funds FCP, an unincorporated mutual investment fund ("Fonds Commun de Placement") created on 18 July 1985, was transformed, in accordance with Article 110 (2) of the law of 30 March 1988 on Undertakings for Collective Investment, and renamed GIF SICAV II on 15 March 1999. The deed of transformation and the Articles of Incorporation (the "Articles") were published in the Mémorial, Recueil des Sociétés et Associations on 28 April 1999. The name of the Fund was then changed to GIF SICAV on 1 December 1999, to Crédit Agricole Funds on 8 December 2000 and to CAAM Funds on 1 July 2007. As at 2 March 2010, in accordance with the decision taken by the shareholders in the framework of the Extraordinary General Meeting held on 23 November 2009 and with the decision of the Board of Directors taken on 23 December 2009, CAAM Funds was renamed Amundi Funds.

The amendments to the Articles have been published in the Mémorial, Recueil des Sociétés et Associations respectively on 14 January 2000, on 17 January 2001, and on 13 June 2007 for the first three name changes and on 3 April 2010 for the last one. A latest amendment to the Articles has been made on 14 March 2012 and has been published in the Mémorial, Recueil des Sociétés et Associations - C, number 943 and dated 12 April 2012. The Fund is subject to Part I of the amended law of 17 December 2010 on Undertakings for Collective Investment (the "2010 law").

The following Sub-Fund has been launched during the year:

Amundi Funds European Equity ESG Improvers on 15 June 2020.

¹ For purposes of minimum initial investment, we aggregate the investments of a given investor (or group of entities fully owned by the same parent company) across the entire SICAV (all share classes and all sub-funds). Minimums apply in USD or equivalent amount in any other currency.

² For Volatility Euro and Volatility World, may be up to 2.00% higher if the board determines that new investments may adversely affect the interests of existing shareholders.

³ In Q-A and Q-I share classes, Board approval is not required.

⁴ For A4 share classes, conversion is only possible between A4 share classes of another Sub-Fund of the UCITS.

2 PRINCIPAL ACCOUNTING CONVENTIONS

■ PRESENTATION OF THE FINANCIAL STATEMENTS

The Fund's financial statements were prepared in accordance with the legal and regulatory provisions in force in Luxembourg concerning undertakings for collective investment.

The financial statements are presented on the basis of the latest Net Asset Value ("NAV") calculated during the financial period/year. In accordance with the prospectus dated May 2020, the NAVs were calculated using the latest market values and exchange rates known at the time of the calculation meaning:

- For all sub-funds: 30 June 2020.

In the annual report as at 30 June 2020, the sub-funds merged or liquidated during this year are shown separately in the Statement of Operations and Changes in Net Assets and are included in the combined figures.

The financial statements of the Fund and each of its Sub-Funds have been prepared on a going concern basis of accounting except for BFT Optimal Income, Protect 90 USD and Bond Asian Local Currency Debt which have been prepared on a non-going concern basis of accounting. The application of the non-going concern basis of accounting has not led to material adjustments to the Sub-Fund's published net asset value at year-end.

The objective of Amundi Funds Protect 90 and Amundi Funds Protect 90 USD is to provide a participation in financial markets evolution while also providing permanent partial protection of your investment over any given 3-year period. Specifically, the sub-fund is designed to ensure that its share price does not fall below 90% of the highest net asset value it has ever achieved, that for Protect 90 and as from 05/06/2020, sub-fund is designed to ensure that share price does not fall below 90% of the highest net asset value recorded as from 05/06/2020, as per prospectus.

- **Cross Sub-Funds investments** - As at 30 June 2020, the value of the investments made by sub-funds in other sub-funds of the SICAV amounts to EUR 819,889,324 corresponding to 1.10% of the total net asset value. Therefore, the total combined NAV at the period end without those cross investments would amount to EUR 73,651,832,065.
- **Securities portfolio** - Transferable securities listed on a Stock Exchange or on a regulated market are valued at their last known price. When these prices are not representative or when securities are not listed, they are valued at their reasonably probable realisation value, determined with care and in good faith by the Board of Directors.
- **Conversion of items expressed in foreign currencies** - The Fund's financial statements are expressed in Euro (EUR). Net assets of each sub-fund expressed in foreign currencies are therefore converted and combined in EUR at the exchange rate in force at the close of the financial year. Transactions and acquisition costs for portfolio securities expressed in foreign currencies are converted into the accounting currency of the sub-fund concerned at the exchange rate in force on the date of transaction or acquisition, as appropriate. Valuation values for securities in the portfolio and of other assets and liabilities expressed in foreign currencies are converted into the accounting currency of the sub-fund at the exchange rate in force at the end of the financial period. Currency differences resulting from these conversions are recorded in the Statement of Operations and Changes in Net Assets.
- **Return on investments** - Dividends and coupons are entered as yields on the date when they are declared and in so far as the appropriate information can be obtained by the Fund. Interest is accrued on a daily basis.
- **Distribution of costs and expenses** - Each sub-fund is charged with costs or expenses specifically attributable to it. Costs and expenses not attributable to a specific sub-fund are distributed between the sub-funds on an equitable basis, in proportion to their respective Net Assets.
- **Repurchase agreements** - Repurchase agreements (Repos) are equivalent to borrowings guaranteed by underlying assets presented in the securities portfolio of the sub-fund which remains exposed to market risk. Reverse Repurchase agreements (Reverse Repos) are similar to guaranteed loans. In this case, the sub-fund is not subject to the risk of depreciation in the value of the underlying assets. Repos and Reverse Repos are regarded as borrowings and loans, respectively, of the sum of liquid assets received and/or paid.
- **Futures contracts** - Unexpired futures contracts are valued at their last known price on the date of valuation or on the closing date and unrealised appreciations or depreciations resulting from them are recorded in the Statement of Net Assets.
- **Futures-style options contracts** - Futures-style options contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of investments"). Initial margin deposits are paid in cash upon entering into the contract. Subsequent positive or negative cash-flows, referred to as variation margins, are paid or received by the Sub-Fund periodically and are based on changes in the market value of open options contracts. When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction. Net unrealised appreciations or depreciations on futures-style options contracts are recorded in the Statement of Net Assets. Net realised and net change in unrealised gain/(loss) on futures-style options contracts are recorded in the Statement of Operations and Changes in Net Assets.
- **Forward foreign exchange contracts** - Unexpired forward foreign exchange contracts are valued at the exchange rates applicable on the valuation date or on the closing date and unrealised appreciations or depreciations resulting from them are recorded in the Statement of Net Assets. In the Cash sub-funds, the unexpired forward foreign exchange contracts are valued with the linearisation method.
- **Valuation of options and swaptions** - Options officially listed on a stock market or any other regulated market, operating in a regular manner, recognised and open to the public, are valued on the basis of their closing prices on the valuation day or, in the absence of such prices, on the basis of the last-known prices available. If these last-known prices are not representative, the valuation will be based on the probable realisation value estimated by the Board of Directors with prudence and in good faith. Currency options are valued at the market value.
- **Swaps** - The Fund is authorised to enter into volatility swaps, correlation swaps, credit default swaps, total return swaps, inflation swaps, asset swaps, interest rate swaps or currency swaps. Except for the interest rate swaps included in the Net Asset Value of the Cash EUR and Cash USD sub-funds, interest rate swaps, volatility swaps, correlation swaps, variance swaps, credit default swaps, total return swaps, inflation swaps and currency swaps are recorded at market value based on the valuation elements laid down in the contracts. In the Cash sub-funds, the unexpired swaps contracts are valued with the linearisation method. The unrealised net gain is included in the item "Unrealised net appreciation on swaps and CFD" in the Statement of Net Assets and the unrealised net loss is included in the item "Unrealised net depreciation on swaps and CFD" in the Statement of Net Assets.
- **Money market instruments** - The money market is a financial instrument with high liquidity and very short maturities. It is used by participants as a means for borrowing and lending in the short term, with maturities that usually range from overnight to just under a year. For the money market instruments, the accretion (difference between cost and amortised value), is reported under "Net change in unrealised appreciation/(depreciation) on investments and on debts derived from reverse repurchase agreements" for securities held. If the instruments have been sold or reimbursed, this result is considered as "Net realised profit/(loss) on securities sold".
- **Mortgage related securities - To Be Announced securities (TBAs)** - TBA positions refer to the common trading practice in the mortgage backed securities market in which a security is to be bought from a mortgage pool (e.g. Ginnie Mae, Fannie Mae or Freddie Mac) for a fixed price at a future date. At the time of purchase the exact security is not known, but the main characteristics of it are specified. Although the price has been established at the time of purchase, the principal value has not been finalised. TBA positions are disclosed in the Securities Portfolio. The purchase of this type of security has not been settled and as a consequence, the amount corresponding to the payable due when the transaction is settled, is disclosed under "Brokers payable" in the Statement of Net Assets.

The realised profits/(losses) on TBAs and changes in unrealised appreciation/depreciation are disclosed in the Statement of Operations and Changes in Net Assets respectively under the headings "Net realised profit/(loss) on securities sold" and "Net change in unrealised appreciation/(depreciation) on investments and on debts derived from reverse repurchase agreements".

- **"Net realised profit/(loss) on securities sold"** - The "Net realised profit/(loss) on securities sold" figure of the Statement of Operations and Changes in Net Assets reflects the difference between the cost and proceeds from securities sold, including the market as well as the currency impacts.
- **Transaction costs** - The transaction costs include broker fees and fees charged by the custodian for securities and derivatives transactions. The transaction fees are excluded from the cost of securities and derivatives purchased and sold. All these fees are recorded under caption "Broker and transaction fees". Refer to note 14 which describes the reception and transmission of orders fees.
- **Contracts for difference** - At each valuation date, the difference in price between the opening price and the current market price of the underlying security or index to the CFD is recorded as the market value (unrealised gain or loss) of the contract; when the Sub-Fund enters a closing transaction, the difference between the opening notional amount and the closing notional amount of the underlying security is recorded as a realised gain or loss. Initial margin deposits may be made in cash upon entering in CFD. Subsequent payments, referred to as variation margins, are made or received by the Sub-Fund periodically and are based on changes in the market value of open CFD contracts.

3 EXCHANGE RATES USED AS OF 30 JUNE 2020

The exchange rates used for the combined figures are the following:

1 JPY =	0.008253 EUR
1 USD =	0.890353 EUR

4 MANAGEMENT FEES, ADMINISTRATION FEES AND DISTRIBUTION FEES

Fee structure - The Administration fee is a fee expressed as a percentage of the NAV of the sub-funds and classes of shares, including all the administrative expenses of the Fund.

Such fee includes the remuneration of the Administrative Agent, Domiciliary Agent, Transfer Agent and Registrar Agent for their services rendered to the Fund, the remuneration of the Custodian for its services rendered to the Fund as well as all other administrative expenses incurred in the operation of the Fund including but not limited to:

- the fees of auditors and legal advisers of the Fund (including costs associated with compliance with legal and regulatory requirements);
- the cost of translation, printing and distribution to investors of the annual and semi-annual reports of the prospectus of the Fund and of the Key Investor Information of each class of shares and any supplement thereto as well as any notice to the Investors' attention;
- any costs related to the information of the shareholders including costs related to the publication of prices of shares in the financial press, the production of information material for the subscribers and distributors;
- any fees and expenses involved in registering and maintaining the registration of the Fund with any governmental agency or stock exchange and to comply with any regulatory requirements and the reimbursement of such fees and expenses incurred by any local representative;
- the fees of any local representative/correspondent, of which the services are required pursuant to the applicable law;
- the costs related to extraordinary measures, in particular any expertise or trial aiming at the protection of the shareholders' interests;
- the costs related to the translation, distribution and publication of any notice to the shareholders.

The Administration fee is payable monthly in arrears to Amundi Luxembourg S.A. and is calculated each day for each sub-fund and each class of shares.

From such fee, Amundi Luxembourg S.A. will pay the fees of the Custodian, the Administrative Agent, the Domiciliary Agent, the Transfer Agent and the Registrar Agent and the other administrative expenses of the Fund as described in the above list.

The Management fees, expressed in percentages of the NAV, are payable quarterly to Amundi Luxembourg S.A. and calculated each day for each sub-fund on the basis of the daily NAV of each class of shares.

The Management Company is responsible for paying commissions to Investment Managers.

In addition to the management fees paid by the Fund to Amundi Luxembourg S.A., the sub-funds investing part of their assets in other UCI's are also subject to the management fees charged to those sub-funds, except for cross sub-funds investments.

The Distribution fees are calculated and accrued on each Dealing Day at the below rates per annum and are payable quarterly in arrears to Amundi Luxembourg S.A. Amundi Luxembourg S.A. is responsible for the payment of fees to Distributors.

The Management Company can further decide to pay remuneration to Distributors out of its own fees.

5 PERFORMANCE FEES

The performance fee is calculated separately for each Class of Shares. It shall be accrued daily, deducted and paid annually for each Class of Shares. The performance fee is calculated by comparing the NAV of the sub-fund relevant Class of Shares and the reference asset.

The mechanism applied is further detailed on the website www.amundi.lu/Amundi-Funds

The sub-funds and the Classes of Shares subject to a performance fee are listed on the website www.amundi.lu/Amundi-Funds.

6 TAXATION OF THE FUND - TAXE D'ABONNEMENT

The Fund is further liable in Luxembourg to a tax of 0.05% per annum in respect of the Equity sub-funds, Bond sub-funds, Multi Asset sub-funds, Protected sub-funds and Absolute Return sub-funds (except on investments by these sub-funds in other undertakings for collective investment established in Luxembourg for which no tax is applied) and of 0.01% per annum in respect of the Cash sub-funds, the H classes Category, the I classes Category, the J classes Category, the M classes Category, the O classes Category, the OR classes Category, the SE classes Category, the X classes Category and the Z classes Category of all the sub-funds ("Taxe d'Abonnement"), such tax being payable quarterly on the basis of the NAV of the Fund at the end of the relevant calendar quarter.

The benefit of the 0.01% per annum Taxe d'Abonnement is available to those Shareholders admitted in the H classes Category, the I classes Category, the J classes Category, the M classes Category, the O classes Category, the OR classes Category, the SE classes Category, the X classes Category and the Z classes Category on the basis of the Luxembourg legal, regulatory and tax provisions as these are known to the Fund at the time of admission of an Investor in such class of shares.

However, no guarantee can be given for the past and for the future and such assessment is subject to interpretations on the status of an eligible Investor in the H classes Category, the I classes Category, the J classes Category, the M classes Category, the O classes Category, the OR classes Category, the SE classes Category, the X classes Category and the Z classes Category by any competent authorities as will exist from time to time. Any such reclassification made by an authority as to the status of an Investor may submit the entire class of shares to a Taxe d'Abonnement rate of 0.05% per annum.

7 MASTER-FEEDER STRUCTURE

Amundi Funds European Equity Green Impact

The objective of the sub-fund Amundi Funds European Equity Green Impact is to achieve capital growth.

Specifically, the sub-fund invests as a feeder fund in Amundi Valeurs Durables (Master Fund).

The Master Fund invests mainly in European equities. Specifically, the sub-fund invests at least 85% of its net assets in units of the Master Fund (OR class). The sub-fund may invest up to 15% in deposits and derivatives that are used for hedging only. Amundi Valeurs Durables is an FCP that is constituted under French law and qualifies as a Master Fund under Directive 2009/65/EC.

The Master Fund invests at least 75% of its net assets in equities of companies that are headquartered, or do substantial business, in Europe, that derive a large portion of revenue from environmental activities, and that perform well on extra-financial ESG criteria (environment, social and governance).

The Master Fund expects to have an equity exposure of between 75% and 120%. There are no market capitalisation constraints for these investments.

While complying with the above policies, the Master Fund may also invest in investment-grade bonds and convertible bonds, money market instruments and deposits, and up to 10% of its net assets in UCITS/UCIs.

Derivatives are integral to the Master Fund's investment strategies. The Master Fund may use derivatives for hedging and efficient portfolio management, and to increase its net exposure. In addition to core derivatives, the Master Fund may use credit derivatives (on single issuer and on indices). The Master Fund may enter into temporary acquisitions and sales of securities (repurchase and reverse repurchase agreements). The Master Fund is not managed in consideration of any index though its performance is compared to the MSCI Europe Index.

The Master Fund's investment team analyses about 100 European equities applying a SRI (Socially Responsible Investment), among which they select companies that are active in green technologies (energy efficiency, renewable energies, water and waste management), well evaluated on extra-financial ESG criteria (environment, social and governance) and exclude companies that produce energy from fossil fuels or nuclear power. The investment team uses an optimisation process to achieve the desired diversification, number of securities, risk profile and liquidity.

The Investment manager of the both sub-funds is Amundi Asset Management.

Fees directly charged to Amundi Funds European Equity Green Impact amount to EUR 5,500,028 which is summarized in the table below in terms of percentages of the average NAV of Amundi Funds European Equity Green Impact share-classes:

			Ongoing charges	Performance fees
European Equity Green Impact	EUR	- A EUR (C)	1.62%	0.75%
	EUR	- A EUR AD (D)	1.63%	0.00%
	EUR	- F EUR (C)	2.58%	0.33%
	EUR	- F2 EUR (C)	2.81%	0.00%
	EUR	- G EUR (C)	2.12%	1.15%
	EUR	- I EUR (C)	0.68%	1.28%
	EUR	- ME (C)	0.88%	0.79%

Fees indirectly charged through fees accrued in the Master Fund (OR Class) amount to EUR 190,290 or 0.10% of the average NAV of the Master Fund (OR Class) Amundi Valeurs Durables.

The annual and semi-annual reports of the Master Fund are available upon request at the Registered Office of the Fund.

Amundi Funds Global Total Return Bond

The objective of the sub-fund Amundi Funds Global Total Return Bond is to achieve a combination of income and capital growth (total return).

Specifically, the sub-fund invests as a feeder fund in Amundi Oblig Internationales (Master Fund) that seeks to outperform (after applicable fees) the JP Morgan Global Government Bond Index Broad index over any given 3-year period.

The Master Fund invests mainly in OECD bonds and convertible bonds. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 85% of its net assets in units of the Master Fund (OR-D class). The sub-fund may invest up to 15% in deposits and derivatives that are used for hedging only.

Amundi Oblig Internationales is a SICAV constituted under French law and qualifies as a Master Fund under Directive 2009/65/EC.

The Master Fund invests up to 100% in:

- bonds issued or guaranteed by OECD member states,
 - investment-grade bonds and convertible bonds issued by companies that are headquartered, or do substantial business, in the OECD,
 - MBSs and ABSs rated AAA (S&P) or Aaa (Moody's) at the time of the purchase and downgraded not less than AA or Aa2 when held.
- The mortgages underlying the MBSs may be commercial or residential, and the MBSs may or may not come with any form of government credit backing.

The Master Fund's exposure to contingent convertible bonds is limited to 10% of net assets.

The Master Fund actively manages its exposure to interest rate and foreign exchange markets.

While complying with the above policies, the Master Fund may also invest in money market instruments, deposits, and up to 10% of its net assets in UCITS/UCIs.

Derivatives are integral to the Master Fund's investment strategies. The Master Fund may use derivatives for arbitrage, hedging and efficient portfolio management, and to increase its net exposure.

In addition to core derivatives, the Master Fund may use credit derivatives (on single issuer and on indices).

The Master Fund may enter into temporary acquisitions and sales of securities (repurchase and reverse repurchase agreements).

The Master Fund's net income is automatically distributed and its net realised capital gains are automatically reinvested or distributed each year, as the management company of the Master Fund may determine.

The Master Fund's investment team uses a wide range of strategic and tactical positions, including arbitrage among credit, interest rate and currency markets, in assembling a highly diversified portfolio.

The Investment manager of the both sub-funds is Amundi Asset Management.

Fees indirectly charged through fees accrued in the Master Fund (OR-D Class) amount to EUR 234,035 or 0.10% of the average NAV of the Master Fund (OR-D Class) Amundi Oblig Internationales.

The annual and semi-annual reports of the Master Fund are available upon request at the Registered Office of the Fund.

Amundi Funds Bond Global Total Return also indirectly pays for fees of underlying funds held in the Master Fund.

Amundi Funds Target Coupon

The objective of the sub-fund Amundi Funds Target Coupon is to achieve a combination of income and capital growth (total return). Specifically, the sub-fund invests as a feeder fund in Amundi Revenus (Master Fund).

The Master Fund invests mainly in debt instruments (bonds and money market instruments) of all types that are issued by governments or companies around the world and denominated in one of the OECD currencies, with diversification among currencies and equity markets.

Specifically, the sub-fund invests at least 85% of its net assets in units of the Master Fund (OR class). The sub-fund may invest up to 15% in deposits and derivatives that are used for hedging only.

Amundi Revenus is an FCP that is constituted under French law and qualifies as a Master Fund under Directive 2009/65/EC.

The Master Fund invests at least 70% of its net assets in debt instruments. The Master Fund may invest in

- below-investment-grade bonds (high-yield bonds),
- subordinated corporate bonds (including contingent convertible bonds up to 50% of net assets) and
- up to 20% of net assets in mortgage-backed securities (MBS) and asset-backed securities (ABS).

The Master Fund may also invest in equities of companies of all capitalisations and sectors around the world. The Master Fund's exposure to the equity market may range from 0% to 20% of net assets, and its exposure to the currency market may range from 0% to 100% of net assets.

The Master Fund may also invest up to 10% of net assets in UCITS/UCIs.

Derivatives are integral to the Master Fund's investment strategies. The Master Fund may use derivatives for hedging and efficient portfolio management, and to increase its net exposure.

In addition to core derivatives, the Master Fund may use credit derivatives (on single issuer and on indices).

The Master Fund may enter into temporary acquisitions and sales of securities (repurchase and reverse repurchase agreements).

The amount of the distributed income will be set annually by the management company of the Master Fund, based on the expected returns of the assets in the portfolio.

The Master Fund does not compare its performance to any particular index.

The Master Fund's investment team seeks to exploit yield premiums from a broad investment universe (primarily bonds), using a management approach that is flexible and is based on high-conviction choices. It analyses interest rate and economic trends (top-down) to identify strategies and country and asset class allocations that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including risk premium and credit analysis, to select securities based on their potential to generate income (bottom-up) and to construct a highly diversified portfolio that can provide a regular return.

The Investment manager of the both sub-funds is Amundi Asset management.

12 OTHER INCOME

Amounts of other income in the Statement of Operations and Changes in Net Assets include mainly revenues from securities lending.

13 OTHER EXPENSES

Balances for other expenses in the Statement of Operations and Changes in Net Assets mainly include other taxes and costs from securities lending.

Amounts of other expenses in the Statements of Operations and Changes in Net Assets in the sub-funds Amundi Funds Asia Equity Concentrated, Amundi Funds Emerging Markets Equity Focus, Amundi Funds Emerging World Equity, Amundi Funds SBI FM India Equity, Amundi Funds Equity Emerging Conservative, Amundi Funds Bond Asian Local Debt and Amundi Funds Pioneer Flexible Opportunities mainly include Indian Tax.

Amounts of other expenses in the Statement of Operations and Changes in Net Assets for the sub-fund Amundi Funds Cash EUR mainly include bond interest.

14 RECEPTION AND TRANSMISSION OF ORDERS FEES

Reception and transmission of orders fees are:

- paid to Amundi Intermediation or to Amundi (UK) Ltd, for their services rendered to sub-funds managed by Amundi which consist in centralizing orders and in supporting their best execution.

- accrued daily and paid quarterly on the basis of the transactions handled by Amundi's related parties.

Compared to an investment manager negotiating transactions on his own, the centralization of order enables namely to negotiate better prices with the brokers thanks to an increase of transactions volume, to have access to a larger number of brokers and to more market information, to benefit from the know-how of trading specialists and dedicated trading controllers.

These fees are recorded under caption "Reception and transmission of orders fees" in the Statement of Operations and Changes in Net Assets.

15 STATEMENT OF PORTFOLIO MOVEMENTS

Details of movements of securities in the portfolio for the financial period ending 30 June 2020 may be obtained free of charge on request at the Fund's registered office and the Hong Kong representative office.

The list of the portfolio changes can also be obtained free of charge at the Paying and Information Agent's office in Germany and at the Representative's office in Switzerland.

16 OPERATION WITH RELATED PARTIES

The related parties, in their capacity as brokers, may also carry out operations or invest in currencies or other financial products on behalf of each sub-fund for which the related parties act as broker or on their own behalf or as counterpart for their clients, including cases where the related parties or their clients are able to carry out transactions on their own behalf at the same time as on behalf of each sub-fund. The transactions as listed on the table have been entered into ordinary course of business and on normal commercial terms.

The Fund considers that the commissions, premiums and reductions billed by related parties will be competitive, even though it is in the interest of the related parties to obtain favourable commission rates, together with premiums and reductions for each sub-fund.

During the year, transactions for a total amount of EUR 22,928,073,308.96 i.e. 10.45% of the total transactions carried out over the period, were carried out by such related parties.

During the year ended on 30 June 2020, Amundi Funds carried out transactions with related parties amounting to:

CREDIT DEFAULT SWAPS

The Fund has concluded "Credit Default Swaps" contracts designed to transfer the credit exposure of fixed income instruments between parties. The amounts of fixed income exchanged with an income tied to the evolution of credit events of either an index or a bond, are calculated and accounted for every time the NAV is calculated.

INFLATION SWAPS

The Fund has concluded "Inflation Swaps" which are contracts offering the difference between an inflation level, applied on a given nominal amount agreed at the contract inception, and a fixed interest rate applied on the same nominal amount. These amounts are calculated and booked for every time the NAV is calculated.

25 SWING PRICING

Since January 2016, a Swing Pricing policy has been implemented in the Fund.

Significant net inflows or outflows in a Sub-Fund cause the Investment Manager to trade the Sub-Funds' securities, thereby incurring trading costs.

With Swing Pricing, a Sub-Fund's Net Asset Value per share is adjusted to account for trading costs incurred where shareholders' subscriptions or redemptions activity exceeds a Sub-Fund's predetermined threshold. Swing Pricing is a mechanism of valuation which adjusts (swings) a Sub-Fund's Net Asset Value per share to account for these trading costs.

The aim is to protect the interests of non-dealing shareholders by ensuring the shareholders making significant subscriptions or redemptions contribute to the cost of their transactions.

Market conditions, trading costs and other Sub-Fund's data are used by the Management Company to determine which Sub-Fund's Net Asset Value per share may be affected by Swing Pricing, and the appropriate threshold and swing factor to be applied for each Sub-Fund. These are reviewed by the Board of Directors of the Management Company on a periodic basis.

The Swing Factor may not exceed 5% of Net Asset Value due to Covid situation as per circular resolution dated 12 March 2020.

During July 2019 – June 2020, Swing Pricing adjustments were applicable on the Net Asset Value per share of the following Sub-Funds:

Audit report

To the Shareholders of
Amundi Funds

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Amundi Funds (the “Fund”) and of each of its sub-funds as at 30 June 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the statement of net assets as at 30 June 2020;
- the securities portfolio as at 30 June 2020;
- the statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Protect 90 USD, BFT Optimal Income and Bond Asian Local Currency Debt where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

To the shareholders of Amundi Funds

We hereby confirm that, in our opinion, the Management Company of the Fund, has in all material respects, managed Amundi Funds in accordance with the provisions of the legal documentation of the Fund, as amended, for the year ended 30 June 2020.

For and on behalf of
CACEIS Bank Luxembourg S.A.

If required by the Law, notices to shareholders will be published in the Luxembourg "Mémorial", the Luxemburger Wort and in such other newspapers as the Directors may determine.

SFT REGULATION

Following the Regulation 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions, only transactions on reverse repurchase agreements, repurchase agreements, securities lending and performance swaps were subject to this Regulation as at 30 June 2020

All transactions are bilateral transactions.

Sub-funds respect at all time the constraint "Cash received as collateral of OTC contracts and repurchase agreements has to be higher than the sum of deposits with credit institutions, investments in high-quality government bonds, reverse repurchase transactions with credit institutions and investments in short term money market funds". Cash is managed as a whole; the investment management process does not specifically isolate cash received as collateral from other cash.

Collateral granted by the sub-funds in the context of repurchase agreements are held on segregated accounts.

The income and transaction costs of the securities under repurchase agreements, due to CACEIS, are included in the caption "Income on Reverse Repos" and "Expenses on Repos" in the Statement of Operations and Changes in Net Assets, for each Sub-Fund.

All transactions are bilateral transactions.

Sub-funds respect at all time the constraint "Cash received as collateral of OTC contracts and repurchase agreements has to be higher than the sum of deposits with credit institutions, investments in high-quality government bonds, reverse repurchase transactions with credit institutions and investments in short term money market funds". Cash is managed as a whole; the investment management process does not specifically isolate cash received as collateral from other cash.

Collateral granted by the sub-funds in the context of repurchase agreements are held on segregated accounts.

The income and transaction costs of the securities under repurchase agreements, due to CACEIS, are included in the caption "Income on Reverse Repos" and "Expenses on Repos" in the Statement of Operations and Changes in Net Assets, for each Sub-Fund.

REMUNERATION POLICY AND PRACTICES

Amundi Luxembourg remuneration policy is compliant with the requirements detailed in the European Directive 2014/91/EU that come into force on 18 March 2016, and was transposed into Luxembourg Law of 10 May 2016.

The remuneration policy is based on Amundi group remuneration framework, and it is reviewed annually and approved by the Board of Amundi Luxembourg. The policy is subject to independent review by the internal Compliance function. In 2019 there were no material changes to the remuneration policy adopted for previous years.

The policy applicable for 2019 was approved by Amundi Luxembourg Board on December 17th 2019.

Amundi group Remuneration Committee reviews on an annual basis the group remuneration policy. The 2019 review took place on February 12th 2019.

The remuneration policy and practices objectives are consistent with and promote sound and effective risk management, aligning remuneration with long-term performance and risks in order to avoid conflicts of interest. Fixed remuneration components are linked to the roles covered, the professional services rendered and the scope of responsibilities, reflecting the level of academic qualification, market pay levels, experience and skills required for each position, as well as the level of excellence demonstrated. Variable remuneration is designed to promote a sustainable long-term development of the Management Company and a solid and effective risk management system. Variable remuneration awards consider the performance of the employee, her/his business unit and Amundi group as a whole, and it is based on both financial and non-financial criteria.

Amundi Luxembourg and Amundi group have defined all identified staff having authority or influence on the funds Amundi manages, and who consequently are likely to have an impact on the performance or the risk profile of the funds.

■ AMOUNTS OF REMUNERATION AWARDED

Amundi Luxembourg, the Management Company acts as of 31.12.2019 as Management Company or AIFM for several umbrella and standalone UCITS and AIFs. The total remuneration expressed in Euro paid by Amundi Luxembourg to its staff during the calendar year 2019 is as follows:

	Nr. of beneficiaries	Fixed remuneration	Variable remuneration	Total
Staff	105	6,665,314.66	1,734,680.54	8,399,995.20
Out of which

¹ This fund is a feeder fund that does not use derivatives (leverage figure: 0%). The reported VaR figures are from the Master Funds.

² The risk management method of the sub-fund changed from relative VaR to absolute VaR as of effected date: 31.01.2020.

³ The sub-fund's VaR increased significantly since March 2020 due to a general increase of volatility in financial markets caused by the CORONA virus crisis, including the main risk factors of the sub-fund. To ensure that the fund's risk profile remains in line with the investment policy and the best interest of investors, a detailed analysis of any breach in regulatory VaR is regularly performed and updated. All VaR breaches satisfied these criteria and were therefore classified as passive from their start up to 30/06/2020.

⁴ This Sub-Fund has been renamed, see more details in Note 1.
